The ZAG Family

Plush toy animals are more than just a cuddle toy. They are magical characters who, from generation to generation, are among the favorite toys of young and old. The secret of stuffed animals lies in their charm, a special charm that makes them a trusted friend, a confidant, a family member.

Created two decades ago, the ZAG Family is always growing and renewing itself and continues to contribute to creating unforgettable memories that will last in the memory of our children.

The Zag Family offers a variety of characters, each of which has been personalized with a name so your child can form a real bond with their new friend.

Whether for your child or as a gift for a loved one, what a great way to contribute to the magic of childhood by offering a Zag Family plush!

In addition, ZAG plush toys are eco-responsible since they are filled from 100% recycled plastic bottles.
