CANNABIS ESSENTIALS

ABOUT THE EZYGO BRAND

The **EZYGO** brand represents a selection of 5 essential accessories for recreational cannabis use. Products of superior quality are revalued and presented in nice packaging. All **EZYGO** brand products were developed in compliance with Canadian legislation and meeting the needs of the current market. The primary goal is to simplify the way of selling cannabis accessories.

SILICONE PIPES EZYGO - THE EVOLUTION OF SAFE AND UNBREAKABLE SMOKING PIPES

Silicone is a recent evolution in smoking technology by offering an alternative to glass pipes that are more fragile in comparison to Silicone which offers a solution of durability.

BPA-free, dishwasher safe, unbreakable, the silicone pipe is a great option for durability, convenience, and portability. No worries of breaking it or melting it!

All the EZYGO pipes are displayed in a opaque black plastic bowl, wrapped in a metallic package, with a plastic cover and a useful handle for easy transport. An attractive presentation, protecting pipes against dust in a convenient and compact format perfect for the counter or a shelf.

THE TWISTY BLUNTS - NO MORE ROLLING PAPER!

The Twisty is a glass blunt with an easy filling system. It's actually a way to smoke without a paper. The central spring allows you to fill it and will drive the heat so you do not have to relight as often as a classic pipe. Once finished, you can simply unscrew the central part to empty the contents.

Not sticky, easy to use, made of thick top quality glass, it comes in a nice quality gift & storage box.

EZYGO offers two tank formats: MINI TWISTY and MAXI TWISTY. A new way to smoke, yours to discover!
